

17TH January 2018

Dear Valued Customer

Regarding: Sideloader surcharge – DPW + Hutchinson

For some time now we have been slogged with the Patrick sideloader levy, which thankfully they ceased charging last year.

DPW & Hutchinson have now introduced this outrageous levy. We do our best to avoid sending sideloaders to the terminals, however it happens & we simply cannot afford to absorb this \$66 (DPW) and \$55 (Hutchinson) cash grab any longer.

My proposal of a \$15 per container levy seems to be reasonable to me and I do hope that you and your customers can understand my position. We will not cover the cost however \$15 will help.

This note seeks to notify you of a \$15 increase to your sideloader rates ex DPW & Hutchinson to cover this new cost, effective 15/2/2018.

If you have any concerns with the above please do not hesitate to contact me.

Regards

Grant Hayes
